Treated Pine For Life

H3 Veneer Treated substitute for H3 MGP10

LIFECORE H3V is a Veneer H3 treated framing solution designed to be a fit-for-purpose substitute for Treated Pine MGP10.

With veneer core H3 treatment and clear Weather Shield protection, it delivers consistent performance and protection for above-ground applications, finished DAR smooth with arrised edges and clear on-site identification.

- **Full-depth H3 protection:** veneer layers treated through the core for consistent coverage
- **Built to substitute MGP10:** performance designed to replace MGP10 treated pine framing
- **Weather Shielded coating:** helps resist moisture, mould growth, and UV exposure
- **Straight and stable:** reduces bow, twist, warp, and ongoing movement
- **Cleaner on-site finish:** DAR smooth faces, arrised edges, and edge branding to keep faces clear
- **Lengths up to 7.2m:** Take advantage of continuous spans and faster installs.

Why Choose LIFECORE H3V?

H3 Core Treated: Every veneer layer is treated for consistent, full-depth protection.

Substitution confidence: engineered performance to replace Treated Pine MGPI0.

Weather Shielded Coating: Moisture-resistant, anti-mould, and UV-protected for extended durability.

Stable & Straight: Minimises warping, twisting, bowing, and movement over time.

Clean finish on site: smooth DAR faces, arrised edges, clear edge branding.

Lengths up to 7.2m: Take advantage of continuous spans and faster installs.

No Odour: No Chemical smell in-store or during construction.

No Solvent Residues: Free of excess chemicals for safer handling.

Preservative supplied by Koppers PC:

Piece of mind knowing the preservative is from a world leading supplier and meets the requirements of AS/NZS 1604.1.
