H4 DECKING JOIST

meyBASE4
H4 DECKING JOIST

Engineered Strength. Built for Performance.

Introducing meyBASE4, the ultimate solution for low-to-ground deck applications. Engineered for structural excellence and aesthetic appeal, this F7-rated decking joist combines durability, design, and ease of use in one innovative product.

F7 Structural Rating: Certified strength for residential and commercial decking.

H4 MCA Treated (50-Year Warranty*): Ground-contact rated for lasting protection.

Double Coat Pre-Primed in Monument Grey: Clean finish, ready to install or top coat.

Pencil Round Edges: Easy to tape, fast and tidy installation.

Ideal for Low-Clearance Decks: Built for close-to-ground performance.

SIZE	LENGTH
44X44	6.0m
66X44	6.0m
88X44	3.6, 4.8, 5.4 & 6.0m
138X44	3.6, 4.8, 5.4 & 6.0m

Why Choose meyBASE4?

F7 Structural Rating:

Certified performance for residential and commercial decking. Designed to support modern outdoor living structures with confidence. Built to perform under Australian conditions.

H4 MCA Treated (50 Year Warranty*):

Suitable for ground-contact use, offering long-term protection against decay, insects, and moisture.

Double Coat Pre-Primed in Monument Grey Colour:

A sleek, modern finish that saves time on site. The Monument Grey primer also provides a versatile base for top coating if desired.

Pencil Round Edges:

Smooth, rounded edges allow for quick and clean tapping, ensuring a professional look and fast installation.

Perfect for Low-to-Ground Decking:

Specifically designed for minimal clearance installations, where performance and durability cannot be compromised.

Applications:

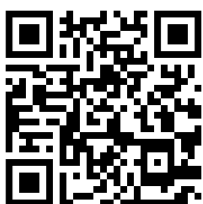

- Ground-level and low-rise decks
- Alfresco and outdoor entertaining areas
- Boardwalks and platforms
- Residential and light commercial builds

Span Tables:

meyBASE4 span tables are available online. For more information or to order a sample. Contact your local merchant or Meyer Timber representative.

*To maintain the limited guarantee meyBASE4 require every cut, rebate or hole to have a preservative sealer applied and re-primed with a quality primer. For more information, please refer to the warranty document on our website.
